

## TrePA 2008

To lot wines from different Portuguese regions was a tradition lost with the modernity of the indication of region of origin. In a modern vision of this tradition, we gathered two red wines, one from Douro and other from Bairrada. To the wine produced with Tinta Roriz (TR) we assembled the wine produced with Baga from Panasqueira Vineyard (PA).

It is an excellent wine to pair with red meats, gamey meats and fat fish in the oven.
